Emergency Hire - Creating a Job Card

Introduction
Initiating an emergency hire process in CHRS Recruiting involves completing the Job Card and submitting for approval and posting. This process will occur for all emergency hire positions. This guide will outline the steps to complete the Job Card, including which fields are required, which are optional, etc. For more details on what fields are required, see the Job Card Field Requirements job aid.

General Information
Recruiting for a New Emergency Hire Position
It is helpful, but not necessary to have a position number in order to complete a Job Card.

Search Committee
It is optional to have a search committee for an emergency hire process. Nevertheless, if a candidate has not already been selected prior to initiating the process and new applicants will be considered, a search committee will be necessary.

If one of your search committee members is not a current Cal Poly Humboldt employee (faculty, staff or student), please contact your Recruiter as they will have to be set up in PeopleSoft then migrated to CHRS Recruiting in the overnight process.
