Overview:
Teaching Associates (TAs) typically are responsible for providing classroom and/or laboratory instruction, making assignments to students, preparing course materials, administering examinations, assessing student performance, tutoring students and determining course grades. Also, incumbents may assist faculty with field experience, supervision, simulation exercises and/or research projects. Students applying for TA positions must be currently enrolled in the graduate program of the department in which they are applying. Degree-seeking graduate students who are enrolled in interdisciplinary degree programs may be hired as TAs for departments that comprise their interdisciplinary programs. Academic Student Employees may not concurrently hold a faculty or staff position. Students with assignments in more than one student classification (i.e., Graduate Assistant, Instructional Student Assistant, and Student Assistant) are restricted to working a maximum of 20 hours per week during the academic year. The 20 hour per week maximum includes hours worked in all positions. See Classification Standards for more information: http://www.humboldt.edu/aps/ase.html.

Job Duties:
A Teaching Associate (TA) works with a curriculum designed by a supervising instructor. They are assigned to course "discussion sections" (in some cases labs) each usually enrolling between 25-35 students. The TA is/becomes familiar with the course material such that they can facilitate successful weekly discussions of readings or other assignments. The TA grades assignments and exams for students in their discussion sections. In addition, a TA meets regularly with the supervising instructor to coordinate the above responsibilities. The TA will usually attend large lecture, except in weeks where other TA workload needs take precedent: this decision must be negotiated with the supervising instructor.

The TA union requires that a TA work 2.67 hours per week for each "weighted teaching unit" (WTU) assigned. For example, a TA may be assigned 2 WTU for teaching two 50 minute discussion sections, plus 1 WTU to compensate for additional time needed to accomplish the related TA work. In this example, the TA would have a 3 WTU workload, which is a 20% time appointment that requires the TA to work a total of 8 hours per week. A TA in this above example could expect the following workload breakdown: 20% discussion section facilitation, 20% large lecture observation including note taking, 10% supervising instructor meetings, and 50% preparation and grading.

Appointments are for a single term, though applicants may reapply for a Teaching Associate position.
