Overview:

Under supervision, Instructional Student Assistants (ISAs) in this classification perform teaching, grading and/or tutoring duties for the majority of work hours in a given appointment in a given academic department or equivalent administrative unit over the course of an academic term. The work may be performed on-campus or at an off-campus public agency or private non-profit organization under an agreement with a campus in the CSU system. Students applying for ISA positions must be admitted or registered as a CSU student. Academic Student Employees may not concurrently hold a faculty or staff position. Students with assignments in more than one student classification (i.e., Teaching Associate, Graduate Assistant, and Student Assistant) are restricted to working a maximum of 20 hours per week during the academic year and up to full-time during academic break periods. The 20 hour per week maximum includes hours worked in all positions. See Classification Standards for more information: http://www.humboldt.edu/aps/ase.html.

Job Duties:

Embedded and connected tutors are hired to tutor specific courses, on-line or in person, and host weekly tutoring sessions. They are responsible for attending regular staff trainings. Tutors promote tutoring sessions by making class announcements, videos, Canvas and media posts, and by communicating with instructor(s). Tutors assist students, individually and in small groups, in finding their own answers to questions and help them learn methods to solve problems independently. In addition, they help students grasp the content of challenging classes and master the study skills necessary to become successful learners. Peer sessions may be recorded for training and evaluation purposes. Tutors may attend course or lab classes for the courses they tutor and communicate with course instructor(s) to share information about the student experience and student needs and clarify instructor expectations. Tutors may create study aids, help other tutors, and read articles to support their development as tutors. The tutors are responsible for informing their supervisor if they are unable to work their scheduled shifts or of any other situations or problems that arise. Peer sessions may be recorded for training and evaluation purposes. Embedded tutors are also responsible for notifying the course instructor of changed work hours.

Minimum Qualifications for this Classification:
