Courses listed below may not be offered or available every term. Please check with the department for a list of available course assignments. We encourage all qualified candidates to submit an application indicating courses of interest.	
DEPARTMENT: GEOLOGY (Job #7042)	
COURSE NUMBER	**COURSE TITLE or AREA OF SPECIALIZATION**
SCI 100	Becoming a STEM Professional in the 21st Century
Minimum Qualifications	**Degree:** Masters degree in Geoscience or related field.
	Experience: Successful teaching experience, academic, or professional work related to appropriate field.
	Preferred: PhD in Geoscience, previous teaching experience.
GEOL 103	Water Planet
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences or Oceanography; previous teaching experience in teaching a similar course; professional experience with Hydrology or Hydrogeology previous teaching experience
GEOL 106	Earthquake Country
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences; previous teaching experience in teaching a similar course; professional experience with natural disasters; previous teaching experience
GEOL 109	General Geology
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences; previous teaching experience in teaching a similar course
GEOL 110	Field Geology Western US
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences; previous teaching experience in teaching a similar course; expertise in the field area relevant to the class
GEOL 210	Earth Systems History
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropirate field
	Preferred: PhD in Geosciences; previous teaching experience in teaching a similar course; experience with field mapping and interpretation

GEOL 300	Geology California
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences; previous teaching experience in teaching a similar course; expertise in the geology of California
GEOL 300L	Geology California Lab
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences; previous in leading teaching geoscience field classes; demonstrated ability in supervising young adults in a field setting
GEOL 303	Earth Resources & Environmental Change
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences; previous teaching experience in teaching a similar course; professional experience with earth resources and/or climate change
GEOL 305	Fossils, Life & Evolution
Minimum Qualifications	**Degree:** Masters degree in Geosciences, Biology or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences or Biology with a paleontology emphasis; previous teaching experience in teaching a similar course; familiarity with the fossils of NW California
GEOL 306	General Geomorphology
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences; previous teaching experience in teaching a similar course, professional experience with geomorphology and surface processes
GEOL 308	Natural Disasters
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences; previous teaching experience in teaching a similar course; professional experience with natural disasters
GEOL 308L	Natural Disasters Laboratory
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences; previous teaching experience in teaching a similar course; GIS expertise

GEOL 312	Earth Materials
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences, with emphasis on Mineralogy and Petrology, experience in teaching a similar course
GEOL 314	Petrology
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences, with emphasis on Mineralogy and Petrology, experience in teaching a similar course
GEOL 332	Sedimentary Geology
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences, with emphasis on Stratigraphy and Sedimentology, experience in teaching a similar course
GEOL 334	Structural Geology
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences, with emphasis on structural Geology; experience in teaching a similar course; professional experience with tectonics
GEOL 335	Field Methods I
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences; previous teaching experience in teaching a similar course; experience with field mapping and interpretation
GEOL 344	Paleontology
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences or Biology with a Paleontology emphasis; previous teaching experience in teaching a similar course; familiarity with the fossils of NW California
GEOL 435	Field Methods II
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences; previous teaching experience in teaching a similar course; experience with field mapping and interpretation

GEOL 455	Colloquium
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: Experience in coordinating speakers' programs
GEOL 457	Engineering Geology
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: Experience in teaching a similar course; licensed professional geologist; professional experience in Engineering Geology
GEOL 460	Solid Earth Geophysics
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geophysics or related field; successful teaching experience, academic, or professional work related to Geophysics
GEOL 465	Geoscience Senior Project
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geophysics or related field; successful teaching experience, academic, or professional work related to Geophysics
GEOL 475	Field Camp
Additional information	4 weeks (full) or 2 weeks (half) teaching the Geology Department's capstone field camp, between May 15 and July 1, supervising students in a primitive field setting in Nevada, California, or Oregon, supervising camp staff (manager, cook, teaching assistants), and evaluating student maps and written reports
Minimum Qualifications	**Degree**: Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field; demonstrated ability supervising young adults in a primitive setting
	Preferred: PhD in Geosciences; previous teaching experience in teaching a similar course; experience with field mapping and interpretation; experience in field area relevant to course.
GEOL 482	Instrumental Methods
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: Expertise in using and analyzing the instruments relevant to the class
GEOL 486	Research Methods
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences; expertise in the seminar topic

GEOL 531	Topics in Advanced Physical Geology
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences or related field; successful teaching experience, academic, or professional work related to class topic
GEOL 553	Quaternary Stratigraphy
Minimum Qualifications	**Degree:** PhD in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: PhD in Geosciences or related field; successful teaching experience, academic, or professional work related to class topic
GEOL 700	Professional Development
Minimum Qualifications	**Degree:** Masters degree in Geosciences or related field
	Experience: Successful teaching experience, academic, or professional work related to appropriate field
	Preferred: Successful teaching experience, academic, or professional work related to class topic
See application instructions at:	https://hraps.humboldt.edu/application-process Scroll down to Temporary Faculty Pool, and follow the instructions listed there.
Additional Application Materials:	Submit a letter of intent stating previous experience and reason for interest in the position.
Submit to:	**Geology (Job #7042)**
	Humboldt State University
	1 Harpst Street
	Arcata, CA 95521-8299
Email:	geology@humboldt.edu
Phone:	**707-826-3931**
Fax:	**707-826-5241**

It is the responsibility of the applicant to provide complete and accurate employment information. Evidence of required degree(s), certifications(s), or licenses(s) will be required prior to the appointment date. A background check (including a criminal records check, employment verification, and education verification) must be completed satisfactorily as a condition of employment with the CSU. Certain positions may also require a credit check, motor vehicle report, and/or fingerprinting through Live Scan service. Adverse findings from a background check may affect the application status of applicants or continued employment of current CSU employees who apply for the position. All CSU employees are obligated to respond to and report incidents of sexual harassment and sexual violence. The successful candidate for this position will be mandated to receive relevant training on an annual basis. The person holding this position is considered a 'mandated reporter' under the California Child Abuse and Neglect Reporting Act and is required to comply with the requirements set forth in CSU Executive Order 1083 as a condition of employment.

New employees hired by the CSU for the first time who first become CalPERS members on or after July 1, 2017 are subject to a 10 year vesting period for retiree health and dental benefits.

Humboldt State University is a Title IX/Affirmative Action/Equal Opportunity Employer. We consider qualified applicants for employment without regard to race, religion, color, national origin, ancestry, age, sex, gender, gender identity, gender expression, sexual orientation, genetic information, medical condition, disability, marital status, protected veteran status, or any other legally protected status. If accommodations need to be made during the recruitment and interview process, please contact Human Resources at (707) 826-3626 or hsuhr@humboldt.edu.
